

Exam 1 Statistics

- ▶ **Count:** 24
- ▶ **Maximum:** 88 (Nima)
- ▶ **Median:** 57.50
- ▶ **Standard Deviation:** 20.03
- ▶ **Average:** 53.83

Comments

- ▶ In general, the class underperformed :(
- ▶ Students who scored lower than $Avg - StdDev = 53 - 20 = 33/100$ should come and see me in my office
- ▶ Other students are more welcome to come and talk to me about their exam results
- ▶ Standard deviation is high; we'd wanna make it smaller
- ▶ Performance in Exam II and Final can nullify Exam I results
